Learn how The Midwest Clinic became famous by providing

ARTHRITIS AND RHEUMATISM RELIEF WITHOUT DRUGS OR SURGERY

When the now famous Midwest Clinic [originally Ball Clinic] was established nearly 50 years ago, its founders didn't dream that what grew into the large health center it is today. Over 70,000 patients have been treated successfully in the field of chronic arthritis, neuritis, sciatica, colon and other rheumatic conditions.

No Pills, No "Wonder" Compounds, No "Cure-All" Formula or Surgery

The staff at Midwest Clinic quickly get at the basic problem rather than treat symptoms. They concentrate on normalizing the body chemistry, adjusting imbalances and stabilizing systemic functions. Of course, a corrective treatment program also is carried out to afford fast relief.

Many Have Endured Needless Suffering Too Long

A careful case history check is made of each person before acceptance by the Midwest Clinic. The years of experience in treating arthritis and rheumatism lends to a quick evaluation to what extent the patient can expect to be relieved by treatment. As a result, 96% of patients, accepted and treated, over the years, are enthusiastic about the relief obtained. Further proof of satisfactory results is the fact that every year one fourth of Midwest Clinic patients are friends and relatives of former patients from the 50 states and Canada.

Valuable Booklet Sent on Request

This 16-page booklet gives you valuable information about the various types of arthritis and rheumatism. It also tells of prevalent and chronic ailments so often associated with arthritis and rheumatism.

Included as well are complete facts about Midwest Clinic and the surprisingly low cost. The book is free—there is no obligation. See coupon.

DEAR ANSWER MAN

IN A recent issue of TV Roundup you made an untrue statement. A reader asked if "Gone with the Wind" was ever on television, and you erroneously answered no. I would like to advise you that I, myself, have seen this movie once, and know that it has been aired at least twice. Would you like to print a retraction?—Rosetta H., Chicago.

Sorry, Rosetta... no retraction! We don't know which film you saw with "wind" in the title (there are several), but it was NOT Margaret Mitchell's Civil War classic. For you, and for the many others who wrote saying we were wrong,

Doris Day

Robert Horton

we repeat: "Gone with the Wind" has NEVER been shown on TV!

* *

Several years ago Doris Day starred in a movie with James Cagney titled "Love Me or Leave Me." She portrayed a well known night club entertainer, and Cagney played her boy friend. I would like to know the name of the girl Doris portrayed, and the year the film was made.—Mrs. Dorothy S. Kekuk, Iowa.

The 1955 film was based on the highly dramatic and tune-filled career of Singer Ruth Etting.

* *

My favorite actor is Robert Horton, who was so wonderful on Wagon Train a few seasons back. Is there any chance he will return to TV soon with a show of his own? I know it's too much to hope for, but I wish he would return to Wagon Train and make that show what it used to be.—Mrs. Howard L., Franklin Park, Ill.

Horton will not return to Wagon Train. In fact, there's little hope that Wagon Train will be back after this season. Horton has been signed to star in a new half-hour western (untitled as yet) aimed for the 1965-66 season. The pilot episode is scheduled to be shot this month.

* *

This may seem like an odd question, but I hope you can answer it. I've noticed that Natalie Wood always wears a bracelet on her left wrist, and I was wondering if this is just habit or is her wrist disfigured in some way?—Mrs. K. L., Chicago.

You're very observing. Miss Wood wears the brace-

let to cover a bone defect resulting from a childhood accident.

* *

Did movie and TV star Dolores Hart quit show business and enter a convent not too long ago? I seem to recall reading about this, but I'm not sure if she actually went thru with it.—Mrs. Irene D., Evanston, Ill.

The successful young actress gave up her film and TV career to enter the religious life over a year ago. Her last acting assignment was a Virginian episode shown last season.

* *

I think Warner Anderson is just great in Peyton Place. He makes his role as the editor so realistic, and he adds much to this fine show. Where can I write to him? Also, how old is he?—Mrs. C. J., Chicago.

Warner Anderson is 54.

Dolores Hart

Warner Anderson

Write him c-o ABC-TV, 7 W. 66th st., New York, N. Y. Incidentally, 1965 is Anderson's golden anniversary in the movies. He made his first film at the age of four.

TOM POSTON says his favorite proverb is "a stitch in time is much better than feeling a draft."

Comic Jackie Clark observed that the lower East Side of New York where he was born was so tough that any kid with ears was a sissy, and any cat with a tail was a tourist.

"Our apartment was so small," says Jackie, "that if you were a sleep walker you were out of luck. You had to stand up in bed and mark time."

"Our apartment building was called Venus de Milo. If you didn't pay your rent the landlord came and broke your arms."

Russ Jones, ABC News' Berlin correspondent, said Conrad Hilton is planning to build a hotel in communist East Berlin. Said Jones: "Already they're calling it the 'Comrade Hilton.'"

COMIC Jackie Vernon says everything happens to him—he was picked up on Times Square on New Year's eve for loitering.

Steve Allen claims he recently met the leader of the rich international jet set. His name? Go-Go Whiskey the 5th.

Eydie Gorme told Johnny Carson she was going on Jack E. Leonard's diet: "You can eat all you want but you can't swallow it."

New, Richly-Bound, Matched Library Volumes Use Everyday Situations to Teach Science, Business, Culture, and School Subjects! Assume Complete Mastery for Faster Job Advancement! Better School Grades, Richer, Fuller Living—In Just 15 Minutes a Day!

Now—the famous, proven **MADE SIMPLE** method offers you an education worth hundreds of dollars for pennies a day! Complete practical instruction in science, business and cultural subjects that you use every day for the children in school, mother at home, dad in his work and everybody in all their social contacts.

You can master these subjects in as little as 15 minutes a day, in three weeks instead of years, with these books that are recommended by parents and noted educators for all age groups.

Learn Whenever You Want—Like Having Private Instructors in Your Own Home

This **MADE SIMPLE SELF-TEACHING** set is the only encyclopedia that makes important subjects part of your general knowledge instead of having to look up books to solve every problem. It covers practical, useful subjects in everyday language. It's like having private instructors in your own home. Learn at your own pace. No outside work, nothing else to buy. The books start from the beginning, assume no previous knowledge and lead you quickly and carefully through the entire subject. Prepared by experts for adults working without supervision, they also perfectly supplement classroom texts, which contain confusing technical language.

Beautiful Library Volumes Perfect for Learning, Brush-Up, Permanent Reference

Whether you want to learn for the first time, review subjects you forget or use **MADE SIMPLE** for reference, you could find no better set or price. These handsome $7\frac{1}{4} \times 10\frac{1}{2}$ inch, 24-carat gold imprinted, matched library volumes are not di-

gests or outlines. Every point is made absolutely clear by illustrations and simple step-by-step explanations, using everyday situations. No half-answers to confuse you, no cross-references to make you use several books to get information. All the books teach you naturally, without memorizing long lists of rules.

Complete Explanations, Simple Illustrations Make Every Point Clear—No Previous Knowledge of the Subject Required

Here's how complicated subjects are **MADE SIMPLE**. In **PHYSICS MADE SIMPLE**, you are shown this simple home experiment, which costs nothing. Hold one edge of a letter paper against your chin, just below lower lip, with the paper hanging over and down. Blow above the paper and it will rise as if pulled up in the air stream. This

simple principle makes airplanes fly and teaches us to make moving objects move quickly and easily. Other books give you Bernoulli's Law, molecular action and other confusing terms. By the time you got to the experiment, if there was one, you wouldn't understand it. Here you read a simple explanation, do the experiment and then learn the technical terms, so you learn naturally by doing, without memorizing anything. This has worked for many people who thought they were more hopeless than you may think you are.

You would pay many times the price for much less beautiful and useful encyclopedias. But these books, with sample military and civil service tests, hundreds of illustrations, hundreds of safe, easy home experiments, thousands of pages of clear, easy-to-understand instruction and self-tests with answers in the back, will be USED, ENJOYED and ADMIRABLE by all your family and friends.
